

CROP FOR THE SHOP

We are a BigBarn Community Champion and aim to be the market place for local food

So why not join the food industry and crop for this shop

What better way for us all to get really fresh food and cut food miles than to grow food to trade at this local shop

T&Cs; Please talk to us about what to grow, if we all grow peas we might get a bit bored of them or have to make soup! Please note we have the right to refuse any produce as well as set terms, such as sale & return or credit notes
